CONCRETE BLOCK BRICKS

- ▶ Due to a high share of slots, perfect for use in cubicle stable
- ▶ Animal weight up to 85 kg or passable with 4 tons axle load
- ▶ Surface with broom finish
- ▶ Bearing: 12 cm
- ▶ Load class: A2/A3
- ▶ Concrete quality: C 40/50
- ▶ Manufactured according to the requirements of DIN EN 12737
- ▶ Standardly deburred slot edges

CONCRETE BLOCK BRICKS

Our concrete blocks are suitable for commercial use, in agriculture, in the private sector as stationary or flexible partition walls such as for various bulk goods such as building materials, building rubble, compost, silage, recycling material and much more.

Concrete blocks are not suitable as clinker walls. Concrete blocks are built in the plug-in/stacking system and are given their stability by the precisely fitting pins. Corner elements and floor anchors are therefore not required.

With the forklift you can move or move the stones yourself without using a crane. Our product guarantees static safety despite simple and quick assembly. We would be happy to make you an individual offer based on your planning.

Usage

Mammoth 60 and 80:

- Partitions for various bulk goods
- Construction of halls or storage systems
- Fire protection walls

Maxi and Mini:

- Area and path limits
- Garden walls
- Partitions, partitions and retaining walls

SIZES:

Description	Length in cm	Width in cm	Height in cm	Weight in kg
Mammoth 80	160	80	60	1.780
	80	80	60	890
Mammoth 60	180	60	60	1.528
	120	60	60	1.017
	60	60	60	509
Maxi	120	60	20	320
	60	60	20	160
Mini	80	40	20	135
	40	40	20	67,5
